I understand that I cannot work with any Rabies Vector Species without a current Pre-exposure Rabies Prophylaxis Vaccination or lab-work supporting required blood titer levels. I understand that such vaccination and routine blood-work is my responsibility and acquired at my personal cost. I also understand that I must provide a copy of the proof of vaccination or blood titer levels if I choose to volunteer with these animals.

List of Potential Exposures of Zoonotic Diseases

The following are a list of common zoonotic diseases that those working with wildlife may be exposed to in the course of rescuing, transporting, handling, caring for, or rehabilitating wildlife. I understand it is my responsibility to discuss these diseases and weigh the risks with my medical doctor. I also understand that many of these diseases are also transmissible to my domesticated pets.
